

V850

INSTYLE[®]
AEROBIKING

V850

The New V850 range is our latest addition to the bike range with a brand new calibrated frame mounted knob incorporating the brake. Instyle innovative design has incorporated the resistance mechanism inside the bike frame, this gives considerable advantage over other manufactures who have left them exposed or covered up this sweat sensitive area with plastic guards.

The V850 is a chain driven bike and comes with combined broad safety pedals with SPD clips.

The V850 is ideal bike for clubs needing a low maintenance chain driven workhorse for heavy duty users.

FEATURES

- The V850 comes with our patented resistance system with shimano lever.
- Non Slip Comfort Handlebar mounted emergency brake for intuitive safety.
- Easy tuning and responsive resistance system allow fast resistance changes.
- Micro-Adjustable seat and handlebars position for perfect posture and comfort.
- Integral quick releases for strength and reliability.
- Cast 21kg with ultra strong axle.
- Hi Carbon steel cranks with heat treated weld.
- Suitable for mixed experienced club workouts.

To order your V850 today just give our support centre a ring on 01342 315933.
