

V900

INSTYLE[®]
AEROBIKING

V900

The V900 is our top of the range bike with brand new calibrated frame, mounted for sweat protection, and a resistance knob incorporating the brake. Instyle innovative design has incorporated the resistance mechanism inside the bike frame, this gives considerable advantage over other manufacturers who have left them exposed or covered up this sweat sensitive area with plastic guards.

The V900 is the ideal bike for the professional fitness centre, with its kevlar belt drive covered in a heavy duty guard giving silent velvet smooth running.

FEATURES

- The V900 Super smooth belt driven pleasure with the sound of silence.
- Laser machined flywheel for perfect balance.
- Micro adjustability of handlebars and seat position allowing everyone to set up the perfect position.
- Oversized handlebars, textured grip allowing full range of positions with comfort.
- Resistance knob, minimal turning for maximum change, allowing quick changes of resistance with non slip calibrated brake knob.
- Minimal maintenance maximum usage.
- Suitable for the heavy club workouts.

To order your V900 today just give our support centre a ring on 01342 315933.
